Can I see which data are public but have not yet been published?

Felix Stoehr - 2023-04-18 - Archive & Data Retrieval

Yes, this is possible.

Go to the [ALMA Science archive](#) and hover over the main Search field in the the top-left corner and then check the "Public data only" checkbox in the Options menu and enter '0' into the "Publications" field in the Project menu.

The screenshot shows the ALMA Science archive search interface. At the top, there is a search bar and a filter menu. The filter menu is open, showing various search criteria. The 'Public data only' checkbox is checked, and the 'Publications' field is set to 0. A red arrow points to the 'Public data only' checkbox, and a blue arrow points to the 'Publications' field.

Observations (16888) Projects (3706) Publications (3207)

Publications: 0 Remove filters
