Can I submit a DDT proposal for the current cycle when a proposal submission for the next cycle is open?

Imported User 195 - 2021-03-17 - Project Planning

Yes. A Director Discretionary Time (DDT) proposal for the current cycle can be submitted anytime during that cycle. One important thing for the DDT proposal submission is that OT **for the current cycle** should be used (even when OT for the next cycle is released). OT (and other information) for DDT proposal submission is available on [DDT proposals page](#).
