## Is it possible to resume interrupted downloads?

Felix Stoehr - 2020-09-21 - Archive & Data Retrieval

Yes!

In case you get an interrupted download just rerun the downloadscript (or continue in the download manager downloads). The software will detect that part of the file is already downloaded and will only fetch the remaining part of the files. This also works for ASDMs which are generated on the fly out of the assets stored in the Archive.
