What should I do when I get the message "We are sorry ..." when trying to download data from the ALMA archive?

Felix Stoehr - 2024-09-25 - Archive & Data Retrieval

If you have problems reaching the Request Handler after clicking the 'Download' button, for example by getting a 'We are sorry ...' message, then the most likely cause is that you are using a Safari browser. Please use Chrome, Chromium, Firefox, Opera, Brave, etc. instead.

If the problem persists try to clear your cookies, and reload the page with SHIFT+Reload.
