What should I do if I have an issue with my proposal assessment?

John Hibbard - 2020-09-21 - Proposal Handling

If you have questions about your proposal assessment, as related in the email notification to the PIs, please submit a Helpdesk ticket to the "General Queries" department, and select the sub-category labeled "Proposal reviews and assessment (science and technical)".

If your question concerns the results of the science panel review, the Helpdesk ticket will be referred to the Proposal Handling Team for comment. Please be patient for a reply. If your question concerns the technical assessment, the ticket will be answered by your supporting ARC.
